

PALLET MANUFACTURER

NON-SLIP STRIPS

AVIENT SOLUTION

Versaflex™ TPE Formulation

WHY AVIENT?

- Provided onsite technical support to incorporate a secondary material in the existing manufacturing process
- Shortened the product development life cycle by quickly providing a durable material within our existing product portfolio that improved grip
- Ensured supply continuity to ease concerns
- Trusted provider of sustainable rigid, elastomer, and color polymer solutions to enable product innovation

LEARN MORE

KEY REQUIREMENTS

- Improve top deck coefficient of friction
- Chemically bond to HDPE and extrude at lower temperatures
- Durability to withstand 7-10 year product lifespan
