

KEY REQUIREMENTS

- Good leakage resistance after post-injection processing
- Strong chemical resistance
- Passes aging tests
- Excellent processability

CHEMICAL RESISTANCE + PROCESSING

DENTAL FLOSSER MANUFACTURER

WATER PUMP HOUSING/VALVE

AVIENT SOLUTION

LubriOne™ Internally Lubricated Formulations

WHY AVIENT?

- Formulated self-lubricated materials to improve the processing performance
- Delivered excellent wear resistance and a low coefficient of friction
- Offered innovative POM and PA12 materials with reliable sealing performance after assembly, meeting the leakage resistance target
